**Easter is a Christian holiday that celebrates the belief in the resurrection of Jesus Christ from the dead.** In the New Testament of the Bible, the event is said to have occurred three days after Jesus was crucified by the Romans and died in roughly 30 A.D. The holiday concludes the “Passion of Christ,” a series of events and holidays that begins with Lent—a 40-day period of fasting, prayer and sacrifice—and ends with Holy Week, which includes Holy Thursday (the celebration of Jesus’ Last Supper with his 12 Apostles), Good Friday (on which Jesus’ death is observed), and Easter Sunday. Although a holiday of high religious significance in the Christian faith, many traditions associated with Easter date back to pre-Christian, pagan times.

**Easter 2021 occurs on Sunday, April 4. However, Easter falls on a different date each year.**

Easter Sunday and related celebrations, such as Ash Wednesday and Palm Sunday, are considered “moveable feasts,” although, in western Christianity, which follows the Gregorian calendar, Easter always falls on a Sunday between March 22nd and April 25th.

In Eastern Orthodox Christianity, which adheres to the Julian calendar, Easter falls on a Sunday between April 4th and May 8th each year.

In some denominations of Protestant Christianity, Easter Sunday marks the beginning of Eastertide, or the Easter Season. Eastertide ends on the 50th day after Easter, which is known as Pentecost Sunday.

In Eastern Orthodox branches of Christianity, Easter Sunday serves as the start of the season of Pascha (Greek for “Easter”), which ends 40 days later with the holiday known as the Feast of the Ascension.

Despite its significance as a Christian holy day, many of the traditions and symbols that play a key role in Easter observances actually have roots in pagan celebrations and in the Jewish holiday of Passover.

## Yard and Garden

Rubbing alcohol is a potent weed killer. Just mix 2 tablespoons of alcohol with a pint of water, and pour the solution into a hand-held spray bottle. Drench each unwanted plant directly. Aim carefully, though, or you might kill off plants that you want to keep.

To kill mealybugs on your houseplants, dab each one with a cotton swab dipped in rubbing alcohol.

Water and acid-loving plants like azaleas, rhododendrons, and strawberries with cold coffee.

The caffeine in coffee increases the potency of any insecticide, so use it instead of plain water in any bug-killing soap spray.

Sprinkle some dried coffee grounds around plants to repel slugs and those nasty cutworms.

## Home Cleaning & Upkeep

Before you wash a grimy windowsill, wipe it with a soft cloth dipped in rubbing alcohol. It will dissolve the greasy dirt, so the detergent can really get in there and do its job.

Remove an ink spot from cloth by blotting the stain with rubbing alcohol, and laundering as usual.

Got nasty grass stains on your clothes? Before you wash the duds, scrub rubbing alcohol into the stains.
